"WARNING"

Participation in competitive athletics may result in severe injury, to include paralysis or death. Changes in rules, improved conditioning, better medical coverage and improvements in equipment have reduced these risks, but it is impossible to totally eliminate such occurrences from athletics. Players can reduce the chance of injury by obeying all safety rules in their sport, reporting all physical problems, following a proper conditioning program and inspecting their equipment daily. Damaged equipment must be replaced immediately. Even if these requirements are met, and even if the athlete is using protective equipment, a serious accident may still occur.
